View the Live Webcast from the convenience of your home or office computer

This program is designed for lawyers interested in getting up to speed about the current law and procedure involved in complex motions, including motions for *Mareva* injunctions, *Anton Piller* orders and sealing orders. Learn the skills you need—from building a winning record to crafting water-tight orders—to get the results you want.

Topics

You will learn about:

- Anton Piller orders in the electronic age
- Operation and enforcement of Mareva injunctions across borders
- Criteria for and challenges relating to obtaining sealing orders
- Professional and ethical issues you need to consider when bringing these motions
- Tips for drafting persuasive supporting materials, including affidavits and motion records
- Factual and evidentiary thresholds that must be met
- Experts - identifying the right ones and working with them efficiently
- Norwich orders and orders for interim recovery of possession of property (replevin)
- Appropriate forum for complex motions - Commercial List, regular list or Federal Court

Speakers (as of March 17 2011)
